

SUPPLEMENTAL RETIREMENT PLANS

As an employee, you can direct dollars from your gross wages into your own voluntary retirement account.

When choosing this option, you can defer taxes on these dollars until they are withdrawn or you can choose to make after-tax retirement contributions into a Roth 403(b) plan. A penalty tax of 10% (plus normal income tax payments) will apply for early withdrawal unless one of the following conditions applies: death, disability, separation from service during or after the year you reach age 55, reaching age 59½, and hardship. In some cases, a rollover to another tax-deferred qualified plan is allowed by the IRS. Under the voluntary plan in 2023, you can direct up to 100% of your annual salary or \$22,500, whichever is less, per year toward your retirement. In some cases, these limits may be higher. A catch-up provision allows anyone over the age of 50 to contribute an additional \$7,500. PERA DB service time may be purchased with dollars from any of the following voluntary retirement plans.
